PROFESSIONAL SUMMARY

Results-driven Android & React Developer with 2+ years of professional experience at Ninsol Technology, building scalable mobile and web applications across diverse domains including healthcare, e-commerce, and productivity tools. Proficient in Kotlin, Java, and the Android SDK for end-to-end mobile development, with growing expertise in modern web technologies including React.js, Next.js, and MongoDB. Experienced in architecting clean MVVM patterns on mobile and contributing to web projects including AI-powered applications and healthcare tools. Passionate about clean architecture, performance optimization, and delivering exceptional user experiences across both mobile and web platforms. Committed to continuous learning, best practices, and collaborating effectively within cross-functional teams.

TECHNICAL SKILLS

Mobile Development: Kotlin, Java, Android SDK, Jetpack (ViewModel, LiveData, Room, Navigation), Jetpack Compose

Frontend (Web): React.js, Next.js, Redux, Redux Toolkit, RTK Query, HTML, CSS, JavaScript, Tailwind CSS, Shadcn UI, Framer Motion

Backend: REST APIs, Retrofit, Firebase, Node.js, Express.js | **Databases:** MongoDB, Room DB

UI/UX: Material Design, Compose UI, ConstraintLayout, RecyclerView, Custom Views

Tools & DevOps: Git, GitHub, Android Studio, Gradle, Netlify | **Architecture:** MVVM, Clean Architecture, MVC

WORK EXPERIENCE

Ninsol Technology

2023 – Present

Android Developer

- Designed and developed multiple Android applications end-to-end, from concept to Google Play deployment.
- Implemented clean MVVM architecture ensuring maintainable and scalable codebases.
- Built modern Jetpack Compose UI screens alongside traditional XML-based layouts.
- Integrated REST APIs, Firebase services, push notifications, and Google Maps SDK.
- Optimized app performance, significantly reducing crashes and improving user retention.
- Collaborated with cross-functional teams (design, backend, QA) to deliver projects on time.
- Contributed to MERN stack web projects: AI-powered interview assistant and ATS resume builder with dynamic marketing site.
- Built a doctor-focused web app for recording patient data and auto-generating SOAP/DAP medical notes.

KEY PROJECTS

Screen Recording & Screenshot App — MediaProjection-based screen recorder with overlay controls and background service.

Jetpack Compose Salah Guid — Reusable Compose components including animated lists, forms, and custom animations.

AI Interview Assistant (Web) — Real-time AI answer system for live interviews built with the MERN stack.

Medical Notes Generator (Web) — Web app for doctors to record patient data and auto-generate medical summaries.

Utility Tools App — Integrated AdMob ads, background services, and system-level permission handling.

Shopping App — Cart and checkout system with custom Flutter UI and real-time state management.

EDUCATION

BS in Computer Science — University of Agriculture, Peshawar 2019 – 2023

CERTIFICATIONS & TRAINING

Android Development Training — Kamyab Jawan Program (2019–2020)
