ANDROID DEVELOPER | KOTLIN | JAVA | JETPACKCOMPOSE | REACT.JS

PROFESSIONAL SUMMARY

AndroidDeveloper with 3+ years of professional experience designing, developing, testing, and deploying mobile applications using **Kotlin, Java, Android SDK, Jetpack Compose, MVVM, REST APIs, Firebase, and Room**. Experienced in modern Android architecture, reusable UI components, API integration, background services, system permissions, media capture, push notifications, and performance optimization. Additional experience with **React.js, Next.js, Node.js, Express.js, MongoDB, and MERN stack** across AI, healthcare, e-commerce, and productivity applications.

TECHNICAL SKILLS

Languages:	Kotlin, Java, JavaScript
Android:	Android SDK, Jetpack Compose, ViewModel, LiveData, Room, Navigation, RecyclerView, ConstraintLayout, Custom Views
Architecture:	MVVM, Clean Architecture, MVC
Web:	React.js, Next.js, Redux, Redux Toolkit, RTK Query, HTML, CSS, Tailwind CSS, Shadcn UI, Framer Motion
Backend & APIs:	Node.js, Express.js, REST APIs, Retrofit, Firebase
Databases:	MongoDB, Room Database
Tools:	Git, GitHub, Android Studio, Gradle, Netlify

PROFESSIONAL EXPERIENCE

NinsolTechnology — AndroidDeveloper | 2023 – Present

- Designed and developed Android applications end-to-end, from feature implementation and UI development to testing and Google Play deployment.
- Developed maintainable applications using Kotlin, Java, Android SDK, Jetpack Compose, and XML-based layouts.
- Implemented MVVM architecture and integrated REST APIs, Retrofit, Firebase services, push notifications, and Google Maps SDK.
- Built reusable Compose UI components and handled background services, system-level permissions, media capture, and real-time application functionality.
- Optimized application performance and stability while troubleshooting issues and improving overall user experience.
- Collaborated with designers, backend developers, and QA engineers to plan, develop, test, and deliver application features.
- Contributed to MERN stack web applications using React.js, Node.js, Express.js, and MongoDB, including AI and healthcare products.

SELECTED PROJECTS

ScreenRecording&Screenshot App: Developed MediaProjection-based screen recording and screenshot functionality; implemented overlay controls, background services, and Android permission handling.

AI Interview Assistant: Contributed to a real-time AI-powered interview assistant using React.js, Node.js, Express.js, and MongoDB for live interview support and AI-generated assistance.

Medical Notes Generator: Developed healthcare workflows for recording patient information and generating structured SOAP/DAP medical notes and summaries.

ATS Resume Builder: Contributed to an ATS-focused resume builder and dynamic marketing website using modern React-based technologies and structured resume workflows.

Jetpack Compose Salah Guide: Built reusable Jetpack Compose components, animated lists, forms, and custom animations with a focus on maintainable UI patterns.

Shopping & Utility Apps: Implemented cart and checkout workflows, custom Flutter UI, real-time state management, AdMob integration, background services, and Android platform permissions.

EDUCATION

UniversityofAgriculture, Peshawar — Bachelor of Science (BS) in Computer Science

CERTIFICATIONS & TRAINING

KamyabJawanProgram—AndroidDevelopment Training | 2019 – 2020

Training covered Android application development, Kotlin/Java, Android SDK, mobile UI development, and Android architecture.
